Erkan Karabulut

PhD Candidate in Computer Science, University of Amsterdam

e.karabulut@uva.nl erkankkarabulut@gmail.com erkankarabulut.github.io Google Scholar

Research Profile

I research knowledge discovery: finding previously unknown, interesting, and potentially useful patterns from various data types, including tables, graphs, and more recently images. Some of the topics I worked on are finding co-occurrence patterns, utilizing background knowledge, and leveraging foundation models. The methods I developed are neuro-symbolic, neural for scalability and symbolic for interpretable knowledge discovery. A recent highlight in my research is the reframing of rule mining as a neuro-symbolic learning problem, shifting the focus from '*how often does a set of features co-occur?*' to '*what does a learned model believe about their conditional dependency?*', bridging data mining and machine learning. In the future, I aim to broaden my research to new problems in artificial intelligence, while carrying the knowledge discovery perspective with me.

Education

2023 – present	**Ph.D. in Computer Science**, University of Amsterdam, The Netherlands Thesis: *Neurosymbolic Knowledge Discovery from Structured Data*
2019 – 2022	**M.Sc. in Computer Science**, Technical University of Munich, Germany Thesis: *Machine Learning-based Data Classification and Data Aggregation on the Edge*
2014 – 2019	**B.Sc. in Computer Engineering**, Yildiz Technical University, Turkey Thesis: *Adaptive Learning-based Tracing Tool for Weather Research and Forecasting Software*

Work Experience

Mar 2026 – Dec 2026	**Visiting Researcher** Learning and Reasoning Group, Vrije Universiteit Amsterdam
Nov 2025 – Jan 2026	**Visiting Researcher** Translational AI Lab, Amsterdam University Medical Center
Feb 2023 – Jan 2027	**PhD Candidate** Intelligent Data Engineering Lab, University of Amsterdam
Oct 2020 – Sep 2022	**Research Assistant** Research Institute of the Free State of Bavaria for Software-Intensive Systems (fortiss), Germany
Nov 2019 – Oct 2020	**Working Student, Software Infrastructure** Planerio GmbH, Germany
Feb 2018 – Sep 2019	**Software Developer (Part-time)** IPera Solutions, Turkey
Sep 2017 – Jul 2018	**Student Research Assistant** Yildiz Technical University, Turkey

Software

PyAerial	Python library for scalable association rule mining from tabular data github.com/DiTEC-project/pyaerial
wdn-knowledge-graph	Python library for converting water distribution network (WDN) data (EPANET `.inp` files) into RDF knowledge graphs using our WDN ontology github.com/DiTEC-project/wdn-knowledge-graph

Teaching and Supervision

Teaching Assistance

2025	Semantic Web, University of Amsterdam
2024	Information Organization, University of Amsterdam
2024	Knowledge and Data (Semantic Web), University of Amsterdam
2023	Knowledge and Data (Semantic Web), University of Amsterdam

Thesis Supervision

2026, M.Sc.	Jasper Abbes, *To be decided.*
2025, M.Sc.	Yujie Cao. *Rule Learning for Water Distribution Leak Detection*
2025, M.Sc.	Louise Buijs. *Semantically enriched association rule mining as a tool for finding better interpretable rules in gene expression data*
2025, M.Sc.	Jose Pérez Hernández. *Sensor Data Analysis: A Research on Missing Value Imputation with Semantics*
2025, M.Sc.	Yonathan Adye. *Noise Detection in Sensor Data Analysis with Semantics: A Clustering-Based Approach*
2024, M.Sc.	Rhea Huang. *Large Language Model for Ontology Learning in Drinking Water Distribution Network Domain*
2024, B.Sc.	Alessio Silvério. *Heuristic-based Numerical Association Rule Mining*

Talks and Research Dissemination

Jun 2026	*Scalable Knowledge Discovery* WAI Seminar at VU Computer Science Department
Jan 2026	*Scalable Knowledge Discovery from Tabular Data* Table Representation Learning (TRL) Seminar at CWI
Dec 2025	*Scalable Neurosymbolic Knowledge Discovery from Tabular Data* VU Machine Learning Seminar
Nov 2025	*Semantic Rule Learning for Knowledge Discovery and Interpretable Inference*

	Amsterdam Data Science Center Seminar
Sep 2025	*Knowledge Discovery via Neurosymbolic Rule Learning* Unlimidata
Jul 2025	*Semantic Rule Learning for Knowledge Discovery and Interpretable Inference* SICK AG
May 2025	*Semantic Rule Learning for Knowledge Discovery and Interpretable Inference* Amsterdam UMC Translational AI Lab
